

Argee Plastics Pvt. Ltd.
Moulding innovation, the plastic way

Moulding innovation, the plastic way

Argee Plastics is a strong player in manufacturing and supplying quality based plastic injection moulding products. A company that has consistently achieved outstanding customer satisfaction has done so, due to its innovative ways to manage products, processes and people, coupled with precision and aesthetics, thus perfectly understanding market dynamics and surpassing customer demands. Established in 1985, Argee Plastics Pvt. Ltd has emerged a market leader in manufacturing of plastic products for automotive industry. An ISO 9001:2008 certified company; it employs approximately 40 employees and has effectively scaled up with its Injection Molded and Plastic Injection Molded Products (consumer and industrial).

An ISO 9001 - 2008 Certified sister concern, Paras Enterprises caters to non automotive industry and was set up in 1995. An excellent location, Baramati falls in 'D-Zone' area, and has an added infrastructural advantage, prime facilities and octroi free functioning.

Its injection moulding business is focused upon growth, specifically catering to automotive, as well as to adhesives, dairy, construction, and other industries like domestic appliances, leisure, agriculture, telecom and paints. Providing an end to end service from assembly and finishing to printing and packaging is what it is committed to offer. It continues to strengthen its skilled workforce by adding competencies to meet the customers' tailored needs. Strategic orientation is the key to business success. At Argee, the strategic responsibilities upheld by Mr. Ashwin Garg the man on a mission who's endeavored to make it one of the leading enterprises in innovative plastic moulding solutions. Under his able leadership, all the business units are together working towards steering the company forward.

Mission

- To become a one-of-its-kind group of companies that caters to various industries across demographics and geographies.
- To emerge as the most preferred employer among the industry by providing excellent work environment and other key incentives to employees.

Vision

- To be the most preferred and a competitive Group of companies in the Plastics industry, providing and exporting the most superior quality products at an optimum cost.

Quality

At Argee, maintaining the best quality is a motto that is in-built into our systems, processes and people. Everything we do is in complete accordance to these stringent standards.

Quality is intrinsic and is practised at every step. The Company emphasizes on total quality management and customer orientation. Having attained ISO 9001 - 2008 certification, it keeps itself upbeat on market trends. It has been upgrading its technical expertise according to the ever evolving market requirements, thus improving its product and process efficiency.

Quality begins from Design stage- where 'Requirement Gathering' happens alongside customers in order to optimize the design of the tools, choice of materials and the manufacturing processes. This has enabled it to successfully enter into partnerships with a number of prestigious product leaders and it has also gained 'Preferred Supplier' status from customers.

Upbeat Infrastructure

Continued investment in technology, willingness to specialize in automation, printing, assembly and testing, all this is possible only because of a state-of-the-art Plant.

Having an upbeat manufacturing unit, the company is well equipped with a wide range of ancillary machinery ranging from 50 tons to 400 tons.

- Total Industrial Land area available for devolvement – 115000 Sq. Ft.
- Covered Area – 35,000 Sq. Ft.
- Connected Load – 315 + 315 KVA
- Emergency Power Back up – DG 125 KVA.

Machinery

Injection Moulding Machines Installed - (Total 12 Nos.)

Sr.No	Name	RANGE in TONS	Make	Capacity	Nos.
1	SP400B	400 T	Windsor	1.2 Kg	01
2	DE350	350 T	Deep	1.5 Kg	01
3	SP300	300 T	Windsor	600 gram	01
4	OMEGA200	200 T	Ferromatic	450 gram	01
5	SP180	180 T	Windsor	400 gram	01
6	IM185	185 T	Indomax	400 gram	01
7	WM150	150 T	Windsor	400 gram	01
8	WM100	100 T	Windsor	200 gram	02
9	SP80	80 T	Windsor	120 gram	01
10	PI50	50 T	Pushpak	100 gram	02

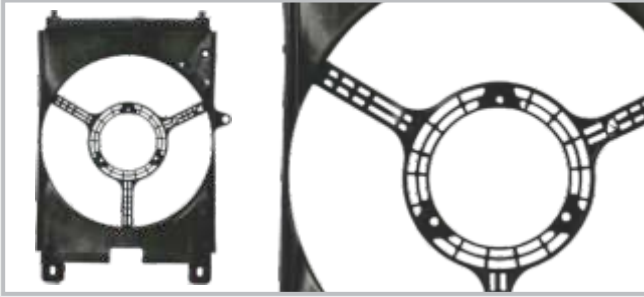

Plastic Injection Moulding Machine

Auxiliary Machines

Sr.No	Description	Nos.
1	Air Compressors	3 Nos.
2	Grinders	7 Nos.
3	Color Mixer	3 Nos.

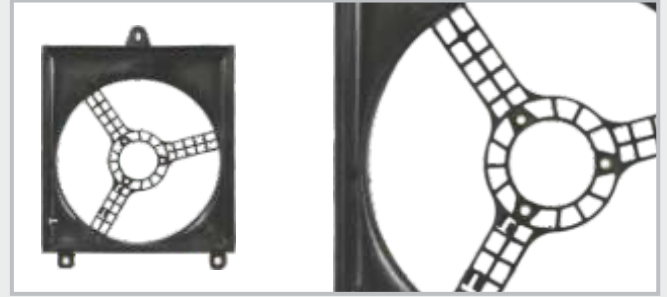

Sr.No	Description	Nos.
4	Ovens	2 Nos.
5	Hopper Dryers	5 Nos.
6	MTC	3 Nos.
7	Chillers	3 Nos.

For Automobile Industries

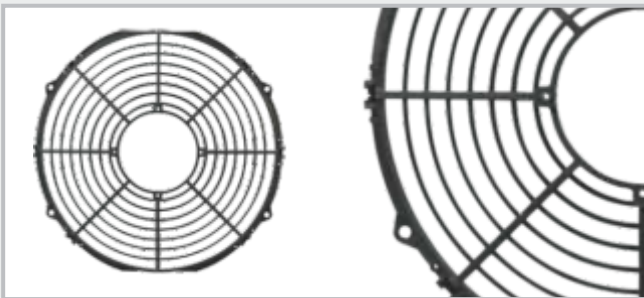

Penguin Shroud

Radiator Shroud for Penguin Vehicle

Tata Ace Shroud

Radiator Shroud for Tata Ace Vehicle

Bolero Condensor Shroud

Condensor Shroud for Mahindra Bolero Vehicle

Kawasaki Japan Shroud

Radiator Shroud for Kawasaki Japan Two Wheelers

Set of Shroud and Fans for Aprilia Italy

Radiator Shroud & Fan with Motor Cover for Aprilia Italy Two Wheelers

Set of Shroud and Fans for Bajaj

Radiator Shroud & Fan with Motor Cover for Bajaj Pulsar

Penguin Fan

Radiator Fan for Penguin Vehicle

Tata Ace Fan

Radiator Fan for Tata Ace Vehicle

DC Motor Bobbin top/bottom

Bobbins for DC Motors for Bajaj 2 Wheelers

Coolant Connectors Assy Hyundai Motors korea

Connectors Assembly for Hot Coolant connection between Rubber & Alu. Hose

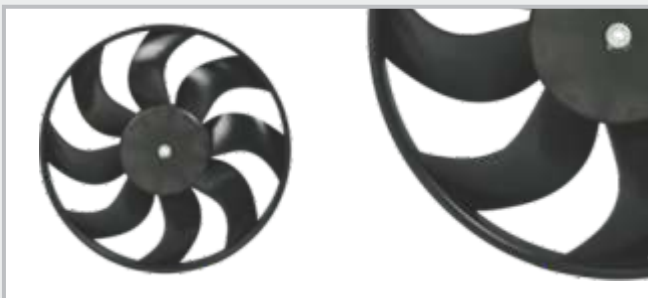

Bolero Condensor Fan

Condensor Fan for Mahindra Bolero Vehicle

Tata X-1 Fan

Radiator Fan for Tata X-1 Vehicle

Tata Panel Van Fan

Radiator Fan for Tata Panel Van Vehicle

Hydromount Parts BMW USA

Hydromount assy. Parts For BMW USA

Square Shroud Set BRP Finland

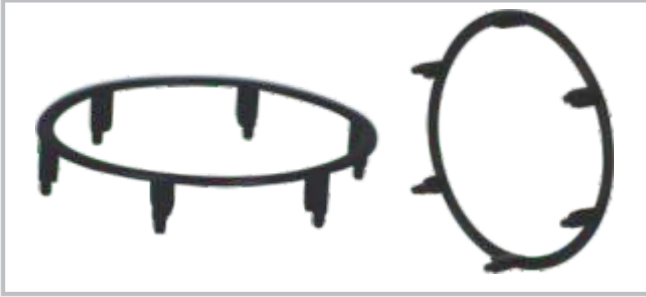

Shroud and Fan with CE Cover for BRP Finland Snow Mobiles

Set of Shroud and Fans for Piaggio Italy

Radiator Shroud & Fan with Motor Cover for Piaggio, Italy Two Wheelers

For Automobile Industries

Alternator Casing Ring Bajaj Auto

Magnet holder for Alternator Bajaj Auto

Seat Base

Seat Base for Bus seats

12MX9B Containers

Set of Containers & Gangplug for 9B Range

Automotive Lead Acid Battery Parts

Automotive Lead Acid Battery Parts

65D23R Container

65D container with 23 Amps, Wide Range of Colour & Printing available

12MX5LB Range

Range for 5LB Series, incl. container, lid, vcc, gangplug

6MX14-6A Lid with Threaded Provs

6MX14-6A Lid with Threaded Provs

Handles and Elbow

Small parts for Batteries, PCPBT Handles and HD Elbow Vent Nozzle with Filter Disc

12MX4LB Container & Lid

Range for 4LB Series, incl. container & lid.

12MF7BB Lid Sets

Range for 7B Series, incl. lid, vcc, gangplug.

Other Sectors

Windmill Lubrication pump Parts

Parts Developed For Bijur Delimon Germany.

250 ML. Cap & Nozzle

Dual Core Cap & Nozzle For Henkel.

Cylinder Holder

Medical Equipment.

Thread Protector From 2" to 12"

Complete Range of Thread Protector Developed by us.

HDPE Pipe End

Pipe End of HDPE Irrigation Pipes.

40 Ltr Milk Cap

Cap for 40Ltr Milk Drum.
